

TAYLOR WANDER-BURNETT

503-333-8049

taylorwanderburnett@gmail.com

Lancaster, California, USA

PROFESSIONAL SUMMARY

Dedicated Computer Science student with hands-on experience in both hardware and software systems. Skilled in developing interactive, performance-driven applications and troubleshooting complex technical issues across platforms. Proficient in data structures, algorithms, and full-stack development, with a strong ability to adapt, learn new technologies, and deliver reliable, efficient solutions in fast-paced environments.

EDUCATION

- Antelope Valley College - 2021-2023 - AS in Computer Science
 - California State University Northridge - 2024-Present - BS in Computer Science
- Expected Graduation - June 2027**

EXPERIENCE

CSUN: Autonomy Research Center for STEAHM | June 2024 – December 2024 | Northridge, CA

Event Coordinator

- Managed digital registration systems and volunteer databases for an event with 500+ attendees, ensuring data accuracy and system uptime.
- Provided on-site technical support for staff systems and devices during event setup and execution.
- Resolved real-time technical issues under pressure, ensuring consistent system performance and reliability.

Antelope Valley College – OSD | September 2022 – December 2023 | Lancaster, CA

Student Services Technical Assistant

- Provided first-level technical support to students of varying ability levels, resolving issues related to campus systems, account access, and digital forms.
- Utilized database and office software to organize confidential student information in compliance with accessibility and privacy standards.
- Demonstrated professional-level problem-solving and adaptability in a technology-dependent environment.

PROJECTS

Minotaur's Maze - *Creator and Sole Programmer*

- Developed a downloadable 2D top-down action-adventure with combat and puzzle-solving mechanics.
- Built from the ground up in Godot, implementing custom algorithms for enemy coordination, adaptive AI, and menu navigation.

Trivia Trope - *Backend and Frontend Developer*

- Created a full-stack web-based trivia quiz platform using JavaScript, HTML, CSS, and a Python backend.
- Integrated a MongoDB database to manage questions, answers, and user submissions.
